In order to ensure the child/youth can be accommodated in safe and healthy manner into a group child care setting, this plan should be completed by the child's health care provider in coordination with the CYS Services child/youth center's health consultant / Army Public Health Nurse (APHN) and the parents/guardian. This plan should be developed with the understanding that CYS Services personnel (non-medical personnel) responsible for caring for children in a group setting will perform the majority of the tasks ordered on this Diabetes Medical Action Plan.

Target blood glucose range for child/youth: _____ mg/dl to _____ mg/dl

Hypoglycemia - Mild to Moderate, blood glucose levels below 70 mg/dl and child is able to swallow (Low Blood Sugar) Symptoms	
☐ Shakiness ☐ Pale or flushed face ☐ Sweaty ☐ Other: _____	☐ Irritable/Confused ☐ Looks dazed ☐ Headache ☐ Weak ☐ Hungry ☐ Dizzy
Treatment of Hypoglycemia if child is unresponsive, or unable to swallow – initiate EMERGENCY RESPONSE	
1) If blood glucose is between _____ and _____ and child/youth is able to swallow give: ☐ 3-4 glucose tablets or ☐ 15 gm glucose gel or ☐ A small cup of regular juice or soda (4 ounces) or ☐ Other: _____ Repeat blood glucose level in 15 minutes	
2) If blood glucose is between _____ and _____ and child/youth is able to swallow repeat food items per step 1. Repeat blood glucose level in 15 minutes	
3) If blood glucose remains between _____ and _____, repeat food items per step 1 and contact parents for pickup for non-response of blood glucose levels. If after steps 1-2 child/youth blood glucose is below _____ and/or for signs/symptoms of severely low blood glucose: UNCONSCIOUS, UNRESPONSIVE OR SEIZURES - CONDUCT EMERGENCY RESPONSE PROTOCOL!	
EMERGENCY RESPONSE: SEVERLY LOW BLOOD GLUCOSE REQUIRES IMMEDIATE ACTION	Notify Emergency Medical Services, ☐ Administer Glucagon (as ordered)

Hyperglycemia - Mild to Moderate, blood glucose greater than 300 mg/dl (High Blood Sugar) Symptoms	
☐ Frequent Urination ☐ Extreme Thirst ☐ Unable to Concentrate ☐ Other: _____	☐ Nausea / Stomach ache ☐ Warm/dry flushed skin ☐ Combative behavior ☐ Heavy breathing ☐ Headache ☐ "Feels high"
Treatment of Hyperglycemia	
If blood glucose is between _____ and _____ and at least _____ hours since last insulin administration, monitor for symptoms and check blood glucose per daily care plan.	
If blood glucose is between _____ and _____ and at least _____ hours since last insulin administration,; ☐ Give child/youth _____ cups of water per hour ☐ Check ☐ Urine ☐ Blood ketones every _____ hour(s) ☐ Other: _____	
Repeat blood glucose level in _____ minutes If blood glucose is between _____ and _____ give an additional dose of insulin of _____ units.	
Repeat blood glucose level in _____ minutes If blood glucose is between _____ and _____ notify parents/guardian for pick-up.	
For signs/symptoms of severely high blood glucose (hyperglycemia): SHORTNESS OF BREATH, VOMITING, BLOOD or URINE KETONES OF _____; OTHER: _____ CONDUCT EMERGENCY RESPONSE PROTOCOL	
EMERGENCY RESPONSE: SEVERLY HIGH BLOOD GLUCOSE REQUIRES IMMEDIATE ACTION	For blood glucose above _____, Emergency Services and notify parent/guardian. Additional Instructions:

ARMY CHILD, YOUTH AND SCHOOL SERVICES DIABETES EMERGENCY MEDICAL ACTION PLAN**(Form to be completed by Health Care Provider)**

Child/Youth Name	Date of Birth	Date
------------------	---------------	------

DIABETES EMERGENCY MEDICAL ACTION PLAN - ADDITIONAL CONSIDERATIONS**POLICY STATEMENT**

For all child/youth prescribed rescue medication, the medication is required to be at program site at all times while child/youth is in care. Child/youth without their prescribed rescue medication are not permitted to participate in program and may not remain on site. For youth who are approved to self-carry and administer their own medications, medication must be current and with the youth at all times. The options of storing "back up" rescue medications at the program is available.

FIELD TRIP PROCEDURES

This Medical Action Plan and prescribed Rescue Medication must accompany child/youth during any off-site activities or field trips. Staff members on trip must be trained on rescue medication use and this health care plan.

INSTRUCTIONAL/SPORT EVENTS

Parents are responsible for having rescue medication on hand and administering it when necessary when the child is participating in any CYS sports or instructional activity. Volunteer coaches do not administer medications.

MEDICAL ACTION PLAN FOLLOW-UP

This Diabetes Emergency Medical Action Plan must be updated/revised whenever medications or child/youth's health status changes. If there are no changes, the Medical Action Plan must be updated every 12 months from the date of the Health Care Providers signature below.

Self-Medication for School Age Child/Youth

☐ **YES.** Youth can self-medicate. I have instructed _____ in the proper way to use his/her medication. It is my professional opinion that he/she SHOULD be allowed to carry and self-administer his/her medication. Youth has been instructed not to share medications and should youth violate these restrictions the privilege of self-medicating will be revoked and the youth's parents notified. Youth are required to notify staff when carrying and administering medication.

OR

☐ **NO** It is my professional opinion that _____ SHOULD NOT carry or self-administer his/her medication.

Parental Permission/Consent

Parent's signature gives permission for CYS Services personnel who have been trained in medication administration by the Army Public Health Nurse or designee to administer prescribed medicine and to contact emergency medical services if necessary. I also understand my child/youth must have required medication with him/her at all times when in attendance at CYS Services Programs and may only self-medicate if approved by a licensed health care provider. My child/youth has been instructed on the proper way to use his/her medication. S/he understands not to share medications.

Licensed health care providers authorized to provide rescue medication approval are doctors of medicine (MD), osteopathic physicians (DO), certified registered nurse practitioners (NP), or certified physician's assistants (PA). If these guidelines are violated, CYS Services Programs privileges may be restricted or revoked.

Rescue medication must be on hand during all CYS Services Programs. CYS Services personnel must notify parent/guardian immediately if medication is given.

Youth Statement of Understanding

I have been instructed on the proper way to use my medication. I understand that I may not share medications and should I violate these restrictions, my privileges may be restricted or revoked, my parents will be notified and further disciplinary action may be taken. I am also required to notify staff when carrying or taking my medication.

I agree with the plan outlined above.
